Cadence McShane Construction
January 12, 2011

U.S. DEPARTMENT OF VETERANS AFFAIRS SELECTS CADENCE McSHANE FOR 10,820 S.F. MEDICAL OFFICE ASSIGNMENT

*(Construction of New State-of-the-Art Medical Space to be
Located Within Texas City Veterans Affairs Clinic in Texas City, Texas)*

(Houston, Texas) – Chuck White, Vice President - Division Manager of Cadence McShane Construction Company, is pleased to announce that the firm has been selected to complete a 10,820 square foot medical suite within the Texas City Veterans Affairs Outpatient Clinic located in 9300 Emmett F. Lowry Expressway in Texas City, Texas.

The state-of-the-art medical suite will contain 24 physician offices, 11 exam rooms, three audiology rooms and one laboratory, in addition to offering X-ray and eye diagnostic services. The new tenant suite will provide convenient access for both patients and providers and is strategically located near several major thoroughfares.

“This state-of-the-art medical suite will be carefully constructed by Cadence McShane Construction to meet the needs of today’s medical practitioners in a changing healthcare

(MORE)

industry,” remarks White. “Our nation’s veterans have provided this country with a great service and deserve the very best in medical care.”

The Texas City medical project marks the third assignment Cadence McShane has received on behalf of the U.S. Department of Veterans Affairs. The firm recently completed an 11,237 square foot tenant suite for the U.S. Department of Veterans Affairs located within the three-story, 60,000 square foot OakBend Doctors Center – Southwest Freeway medical office building in Richmond, Texas.

Additionally, Cadence McShane was selected to complete a 32,950 square foot Veterans Affairs Outpatient Specialty Clinic. The single-story medical facility will be located in Corpus Christi, Texas and is scheduled to break ground in Spring 2011.

Seeberger + Associates LP is providing the architectural services for the Texas City Veterans Affairs Outpatient Clinic assignment that will reach completion in January 2011.
